

The Crawler

The Crawler scaffold-moving device fits any "Baker Style" scaffold and is powered by a cordless drill. The Crawler fits popular drill brands such as Bosch, DeWalt, Hilti, Hitachi and Milwaukee. You can power your scaffold in excess of 1,500 feet with one battery charge. The heavy-duty scaffold rated at 1,000 lbs. The Crawler was listed under the 2005 National Hardware Show Editor's Choice Awards.

Dryerbox

The Dryerbox, by In-O-Vate Technologies, is admirably simple, consisting of an aluminized steel receptacle that installs between the studs behind the clothes dryer and facilitates the collection and housing of the flex exhaust hose. The Dryerbox has obtained a one-hour F rating from United Laboratories.

Call (866) 270-8240 or visit www.dryerbox.com.

Wobble Light

The Wobble Light is self-righting and nearly impossible to damage. When knocked to the ground, it immediately returns to its standing position. It features a polycarbonate dome that protects the bulb from direct contact with hard objects and debris—perfect for the job site!

Call (847) 230-3640 or visit www.wobblelight.com.

Formaldehyde-free insulation

Spider, from Johns Manville, is a formaldehyde-free, high efficiency sprayed-in fiberglass insulation that combines the superior thermal performance of fiberglass with the benefits of a sprayed-in system. Because it's formaldehyde-free, Spider improves overall indoor air quality and reduces concerns about the off-gassing of harmful volatile organic compounds (VOCs) in the home and during installation. Spider was a winner of the 2005 PCBC Cool Products Competition. It was the only insulation product on the list, ranking in at number 6.

360-degree outlet

360 Electrical, LLC's revolutionary new line of wall outlets with receptacles rotate a full 360-degrees in both directions. This technology is the first of its kind and solves the problem of low voltage transformers and other large plugs that crowd conventional duplex outlets. The outlet was listed under the 2005 National Hardware Show Editor's Choice Awards.
